IMPORTANT

Before first use, please read this entire manual carefully and keep it for future reference — it is an integral part of the product. Also keep the product packaging, as it contains operating instructions and information about the product, batteries, and charging.

Your safety is our top priority. Before using the product, please read and follow all the instructions below carefully. These general instructions apply across the entire Lechtivo product range — your specific product may also have its own dedicated manual.

- Keep out of reach of children, as small parts may be swallowed.
- Use the product only if you are in good physical condition.
- Do not use the product with other people against their will. Use the product only with the consent of all persons involved.
- Use the product safely to avoid injury. Use the product at your own risk.
- If you have any health problems or concerns, consult a doctor before using the product.
- Do not use the product on injured or irritated skin.
- If unpleasant skin irritation or physical discomfort occurs, stop using the product immediately. If symptoms persist, consult a doctor.
- To prevent illness and infection, do not pass the product on to third parties.
- Carefully read the information on the product packaging to avoid allergic reactions (e.g., to latex).
- Do not use the product if it is clearly not working, overheats, or has visible defects.
- Do not freeze or heat the product.
- The product is not suitable for commercial use.
- Do not inflate inflatable products beyond the diameter stated on the packaging.
- The product is not suitable for medical use.
- Charge the product only with a suitable charger in an electrical outlet. Follow the instructions for the relevant power adapter.
- No liability can be accepted for damage or accidents caused by improper use, use of force, modifications, or failure to follow these safety instructions.

- Before first use, clean the product with warm water and mild soap.
- If applicable: to prevent damage to the device, make sure no water gets into the battery compartment. Do not immerse the device in water.
- If applicable: charge the product or insert the batteries, if included. For safety reasons, lithium batteries are usually charged to only 40–50% for transport.
- If applicable: assemble the individual parts of the product before first use. You will find assembly information on the product packaging.

If you experience very uncomfortable skin tension, irritation, bruising, discoloration, or other physical discomfort while using the product, remove it immediately.

1

Lubrication

Apply a sufficient amount of lubricant to the surface of the product. Important: a water-based lubricant is recommended.

2

Use

Insert, apply, or use the product carefully at all times.

3

Removal

Slowly remove the product from inside or from the body.

**IMPORTANT**

To prevent any illness, thoroughly clean and disinfect the product after every anal use before continuing to use it vaginally.

- In some models, the vibration module is powered by a replaceable or rechargeable battery — information on replacing batteries or charging the battery pack can be found on the product packaging.
- Charge the product only with a suitable charger plugged into an electrical outlet, following the instructions for the relevant power adapter.
- For safety reasons, lithium batteries are usually shipped charged to only 40–50%; recharge the product or insert batteries as needed before first use.
- To extend the life of batteries and rechargeable batteries and prevent damage to the product, remove the batteries from the product after each use, or unplug the product once the rechargeable battery is fully charged.

- After each use, let the product cool down before putting it away.
- After each use, clean the product with warm water and mild soap, and disinfect it with a disinfectant solution suitable for the product. To avoid damaging the product, make sure no water gets into the battery compartment. Do not submerge the device in water.

- Store the product in a clean, cool, and dry place. Moisture can damage the batteries and motor. Avoid direct sunlight.
- To prevent chemical reactions, store the product separately and not together with other products made of different materials.
- Keep out of reach of children.

The product does not work or does not turn on.

Check / replace the battery, or recharge the product according to the “Charging & battery” chapter.

Skin is irritated after use.

Stop using the product. If irritation persists, consult a doctor.

The product is difficult to insert or use.

Use more water-based lubricant, as described in the “Usage” chapter.

You are unsure about the specific procedure for your model.

Refer to the product-specific manual or the information on the product packaging — this document contains only general instructions applicable across the range.

CAUTION

If the problem persists even after trying the steps above, stop using the product and contact Lechtivo.cz customer support.

 Electronic waste

- Do not dispose of packaging material or the old device in mixed waste — recycle them whenever possible. Separate packaging by material.
- The crossed-out wheeled bin symbol means that this product must be handed in free of charge at an electronic waste collection point so that it can be recycled for the best possible reuse of raw materials.
- Before handing in the old device at a collection point, remove any non-enclosed batteries and rechargeable batteries from it. Before disposal, make sure you have erased all personal data from it.

 Batteries

- Batteries do not belong in household waste. As a consumer, you are legally required to hand in used batteries at a public collection point or at a store where batteries are sold.
- Lithium batteries and battery packs can only be handed in at collection points if they are discharged. To prevent short-circuiting, insulate the terminals (e.g., with adhesive tape) before handing them in.
- Batteries containing hazardous substances are marked with the symbols Cd (cadmium), Hg (mercury), or Pb (lead).

**ENVIRONMENT**

By recycling, you help protect the environment and support the best possible reuse of raw materials.
